

Elections Procedures for Area Virtual Conference 2021

Selecting Voting Delegates

Voting Delegates are responsible for representing your chapter's voice in the Area President Selection process. Select members to be voting delegates who can commit to casting their electronic vote on the specific date and within the window of time for the election. The window is from 8 a.m. – 5 p.m. and delegates may vote anytime within this window. To determine how many voting delegates are allocated for your chapter please refer to this link: <https://www.wadeca.org/voting-delegates/>

Make Sure Your Vote Counts

To cast a vote, delegates must do so within the voting window. Votes will be cast through an electronic voting platform. Each voter will need their unique voting ID and voting password. This information will be provided to advisors to share with the designated DECA members who will serve as voting delegates.

Get to Know the Candidate(s)

Although this is a virtual conference, there are still opportunities to learn about their qualifications and campaigns through our Candidate link. Visit www.wadeca.org/candidates and look for the content made available for your Area, including the name, video speech, and campaign brochure for each candidate.
